Recommended Supply List

The list below is a typical list of what most high school students acquire for the school year.

- Multiple three ring binders {minimum 1"}, loose leaf paper and dividers, or multiple subject spiral notebooks with perforated pages.
- Multiple folders for paper storage
- Black or Blue Pens
- Pencils, preferably no. 2 pencils and not mechanical
- Whiteout, Whiteout tape or some similar product
- Highlighters
- Calculator

Highly Recommended

- Graphing Calculator: Students in higher level mathematics should talk with their teacher and explore the need of purchasing their own graphing calculator. These are very valuable devices for students taking Algebra II, Pre-Calculus, Calculus, Chemistry or Physics.
- Flash Drive: It is highly recommended that students have their own portable hard drive. These devices can be purchased for under \$20. The flash drive allows the student the opportunity to make their saved work portable providing access to school work at home or at school. Note: Student use of this technology is subject to the acceptable use policy adopted by the Board of Education.

Respect, Responsibility, Pride
